

PROFIHEATER

Blue Lagoon Profiheater 3 kW

The Blue Lagoon ProfiHeater is very suitable for warming water. The heater is very easy to install in and around filter installations and applicable for various pools.

Operation

The Profiheater can be used for warming your swimming pool water as it is equipped with an adjustable thermostat. Both the heating element with temperature sensor and the interior of the casing are manufactured from high-quality 316L stainless steel. The Profiheater can be connected using a flexible hose (Ø25, 32 and 40 mm) or PVC tubing (Ø50 and 63 mm). The Profiheater is available in 3kW. Max. pressure: 2 bar. It is advised to use a Flow Switch Plus to prevent overheating of the unit at insufficient water flow.

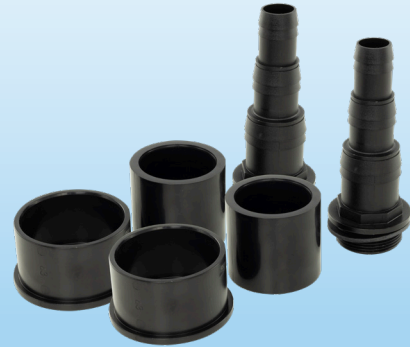

Advantages of the Blue Lagoon Profiheater 3 kW

- Built-in heating element with thermostat
- 316L stainless steel body
- Universal fittings included
- Made in the Netherlands

Blue Lagoon Profiheater 3 kW Technical

	3 kW
Art. number	E830010
Type	75 W
EAN	8714404034173
Max. pressure	2 bar
Max. flow	10,000 L/h
Length unit	56 cm
Diameter in-outlet Ø	63 - 50 - 40 - 32 - 25 mm
Housing material	316L
Weight	3,5 Kg
Quantity full pallet	40 pcs
